Chapter 24 Coyote's Wrath

The Second Neutral's Night.

Sigh...

We have to get Porky and Porki's family back from the Satanists..

Something tells me you already have though...

Yeah, I did.. You know, these strings are powerful.. It almost feels like the only limits to these powers are within the wielder themselves, i tested it.

I know you're aware of the strings that I've slipped into everyone's body.. I did so in almost complete secret. Except for you, nothing gets passed you does it? And i know you know that i knew of your awareness towards what i did. Which gives me the impression that you've been practicing with this power as much as i have.. But i know of us both knowing that we both hold our secrets with this power..

If we're aware of this, and we both know. Then you most certainly have a different purpose for mentioning it. I feel like you might be as tired of this silence as much as i am.. I was about to confront you as well, i don't believe we should be devided anymore..

We should speak to one another as much as possible, whether kindred or not. There are benefits to being sociable. And most importantly, cooperatively strategic.

I couldn't agree more.. But then, you already know what i want to discuss..

Tom and Elmer, amongst other things? They still haven't spoken since Porky's death... I know they blame themselves just like we do.

Cyote, Porki's death is on us..We were being complete dickheads by forcing him to come with us to that bar... We all paid for this, we have given our karma...

And Porky paid the most...

I can see it in your eyes, you feel like my regrets are the most justifiable... And you're correct, it is.. What could i possibly say to you to make that not a reality?

You were suppose to be the most responsible! If i weren't as much to blame then you would have lost all of my respect! The truly troubling aspect to this, is that we aren't allowed to even care much... I hate this feeling...

I can feel the limit to my emotional state approaching.. I should calm my nerves...

It's all trapped within my mind... I've been going through it in my head endlessly, thinking about all of the things i could have done differently... Not able to use my usual methods for venting, forcing myself to find new ways.

The sadness, this pain lingers... Grief has a sway over the soul, crippling it. And yet, somehow even with our new laws of being someone in a permanent state of something cold and numb, we still feel this dreadful emotion. That doesn't sound very neutral or fair to me, does it to you? But why can we not feel happy?

I'm not sure if we can ever feel normal emotions again, especially happiness.. Not without risks..

Exactly my thought. Which is why I'm making it my life's goal to discover a way to sever these powers, and without losing any of our lifespan.. Mark my words!

..I'm not doing this for me. I know we're both willing to sacrifice ourselves if it means they can get through this, Until then? We should consider..

Training them..

Me and you aren't like..

Elmer and Tom..

..Bitch, stop..

Our minds and soul work differently than theirs.. I was a Neutral long before i even became one in many ways, i know that now.

You are all my family, and the only one's i have left.. We have to show them the way, and to make damn sure they keep pushing forward..

..Or they're as good as dead..

..We can't let them die too, man..

..I know, i feel the same.. I understand that our lives will never be as they were, we survived something evil.. Something we will never forget, but something is driving me to keep holding onto hope..

So we're going to play in the race then? Outrun death itself. Still, i wonder if it's possible for us to keep our memories of what we've lost alive, being in this state..

I suppose we should never exclude the possibility, not anymore.

Then we'll master this power, and we'll overcome every obstacle in our wake! With our hearts intact!

Back To The Present
I know i won't be able to stop him...
Leave, Now!
...Wait!
...I wasn't able to find Blaze, and Rob is still fighting with that electric troll...
..Please bring them back, even if they're dead..
Meanwhile

Hey, Hulk! It's you! So, how's that Troll Slaiyer gig going?
Well, You know... It's been going very well.
I killeded a lot of people..

That'll be $2.74, hun.

..Hey! I have a proposition for you.. I believe the benefits would be glorious! We need to do business Sir! If we discover a way to make real money, that would be a 90/10 split. No offense, but you're not what people would call "Good with money" That's why your son's on the dollar bills, isn't it? Anyway, if we make real mother fuckin money, i can get me a whole bus of jaw breakers! Let's get down to brass tacks!
CRUNCH

....Ahhhhhhh!!!...

..Smack!..
..Smash!..
..Rip!..
..Woosh!..
..Splat!..

..Woah, what the fuck!.. I was trolling this lizard..
You're such a useless creature, and you will be until the day you die..
..Crunch..
..Which was right then..
..Alex, what are you doing here!?
Actually, i was trying to find you.. One of the Trolls said they've seen you walking into the jungle..
..I thought he was retarded, apparently i was wrong..
..What do you want!?
..Uhh.. Well, there was a street fight.. One of them died, i didn't know who to tell..
..I don't fucking care, thats why i gave you the task! Don't waste my fucking time!
..Sorry, i won't waste your fucking time then..
...Activating hemophobia algorithms..
..Oh no, blood! I don't like it!..

..What the fuck?..
Alex, get out of here!!
..Alright Sir! I'll see you later..

..I found nothing, again..
..Keep looking!
..I'm tired, I'm so tired... I need a nap! Are you trying to kill me!?
If you don't fly your lazy ass back up there and keep looking, I'll crush your skull!
..I wouldn't do that if i were you.. Mr. Clair wouldn't be too happy with you, would he? It wouldn't be a wise decision to burn bridges with the only friends you have, Sir.
Hmm... Fine, take a nap and get back out there!
Thank you Sir, at long last! Sweet, sweet sleep..
..Snap..
Hm!?
...
..What is it!?
..Sir, Troll Fortress is under attack! The enemy is powerful, Sir!
...

Damn.. I've never seen the Boss this mad before.. He's really fucking mad bro..
..Sigh.. Looks like I'm not getting that nap afterall..
...Activating military algorithms..
..We have to strike at the heart of them!..
Damn, Shadow.. Attacking the base when the Boss is out looking for something else to drag his nutsack on?.. You're bold, I'll give you that..
Return to base! We are now at a state of emergency! Be ready to defend Troll Fortress with your life!
Oh, this is good.. I wasn't expecting to find Troll King himself all the way out here, in search of The Words of Death.. I should inform Pacman of this.. How unexpected indeed..
So, The Trolls are under Attack? Oh my, this day has been very interesting Heeheehee..

Meanwhile
Bam!!
...
...Let go!..
..Let go of me, you stupid mother fucker!
Your costume looks stupid! You're not a super hero!
..Eat my pubes, you stupid mother fucker!
That's it, isn't it? You're one of those stupid people right? That's cute..
It's really obnoxious, you should look into getting that stupidity fixed..
...
Stupid..
You stupid..
You're so stupid..
Stupid..
..Stupid Stupid Stupid Stupid Stupid!
You're misreading the situation.. You're insulting the person who has power over your life.. Now, there's nothing more stupid than that..

Let, the fuck, go of me! You damn Denisovan!
Take this, you stupid bitch!
..Shit!..
...
Ahhhhhh!!..

Never call me stupid, especially not that many times.. That was a lot of times..
I need to return to the hideout, if i were to ever get lost.. Just like Coyote and Sylvester told me to do..
Making a slow and stealthy approach towards making my escape, may be the safer option. It would lessen the risk of detection, but..
The longer i remain here, the more likely i will be confronted by one of the higher ranking enemies, in order for them to recapture me.. So, making a quick escape it is..
Mean while..
SNAP
whats thats noise?
...Why did i just give away my position! I'm an idiot!
SNAP
..What was that!?
..I guess no one's there..
...My mouth is so dry, I'm so thirsty...

The fake chaos emerald seems to be working as expected.. And he doesn't suspect a thing, so Pori's information was accurate.

It's working fine now that Hello Kitty made it into a necklace like we told her to do..

..What we didn't tell her to do is spite fuck Tails to piss off Cheeto Man, and completely fuck Tails over!

That bitch..

Indeed.

She has betrayed us, but Pacman did predict that..

That selfish bitch..

So how's Tails doing?

..Not good..

..Where the fuck do i begin!?

Knuckles' dumbass left him in the jungle alone to fend for himself! Why did he do that!?

Why wouldn't you just take him with you!? Knuckles, you're retarded!!

Tails has no fucking survival capabilities what so ever!

He's drinking fucking swamp water! YOU GOT TO BOIL IT FIRST, TAILS!! YOU GOT TO BOIL IT!!

You're going to have so much poopoo problems!

Hmm... It seems like he wouldn't survive the night.. I'll help him when possible, so he doesn't die.. Just make sure you inform me of any serious events..

Yeah yeah..

If you want my opinion, this is all fucked and I'm wasting my time watching this fucktard drink swamp water..

That's better
Woooo!!

See? When you add an unknown element to their environment,
they all try to determine if it's a threat or not.
But be careful, if they discover you to be the source of disruption? They will make you out to be the culprit.

...We will meet again, in the afterlife... My Brother..
Hahahah!! Another Dragon, turned to dust! Troll King will be proud of this glorious achievement! Hahaha!..
. . .

..Woah..
What was that?
...I've never seen so much power.. Troll King should know that our enemies aren't those who we can take for granted, if he's even still alive...
..Assuming, the almost complete destruction of Troll Fortress wasn't a clear enough of a statement for him to understand what we're dealing with..
We haven't seen this kind of power in several years.. Good, something to practice my new power on..
..I have to stop her..

..You will be my eyes for me here, while my focus is on the task..

It is very challenging for me to focus on so many separate consciousnesses and their senses...
Not to mention how straining it can be, when controlling a complicated corpse..
..Birds may fly like breathing but flying isn't second nature to me, so it takes effort to make each individual bird fly.. I regret not eating their brains in order to gain a better understanding of it...
You will be my eyes, while you all soar through the fortress..
Go forth, find me anything of relevance for me to obtain!...

Meanwhile, Back To Elmer.

..Due to the attack on the fortress, it wouldn't be possible for Troll City to not be on high alart, we can't risk being seen escaping through the city..

So you want to go around the city? That will take us several hours longer to reach the base..

..Indeed, but it's the method with the highest odds of success..

...This, is perfection!! My most extensive project is complet!! Hahahahaha!!..

Well done, Master.

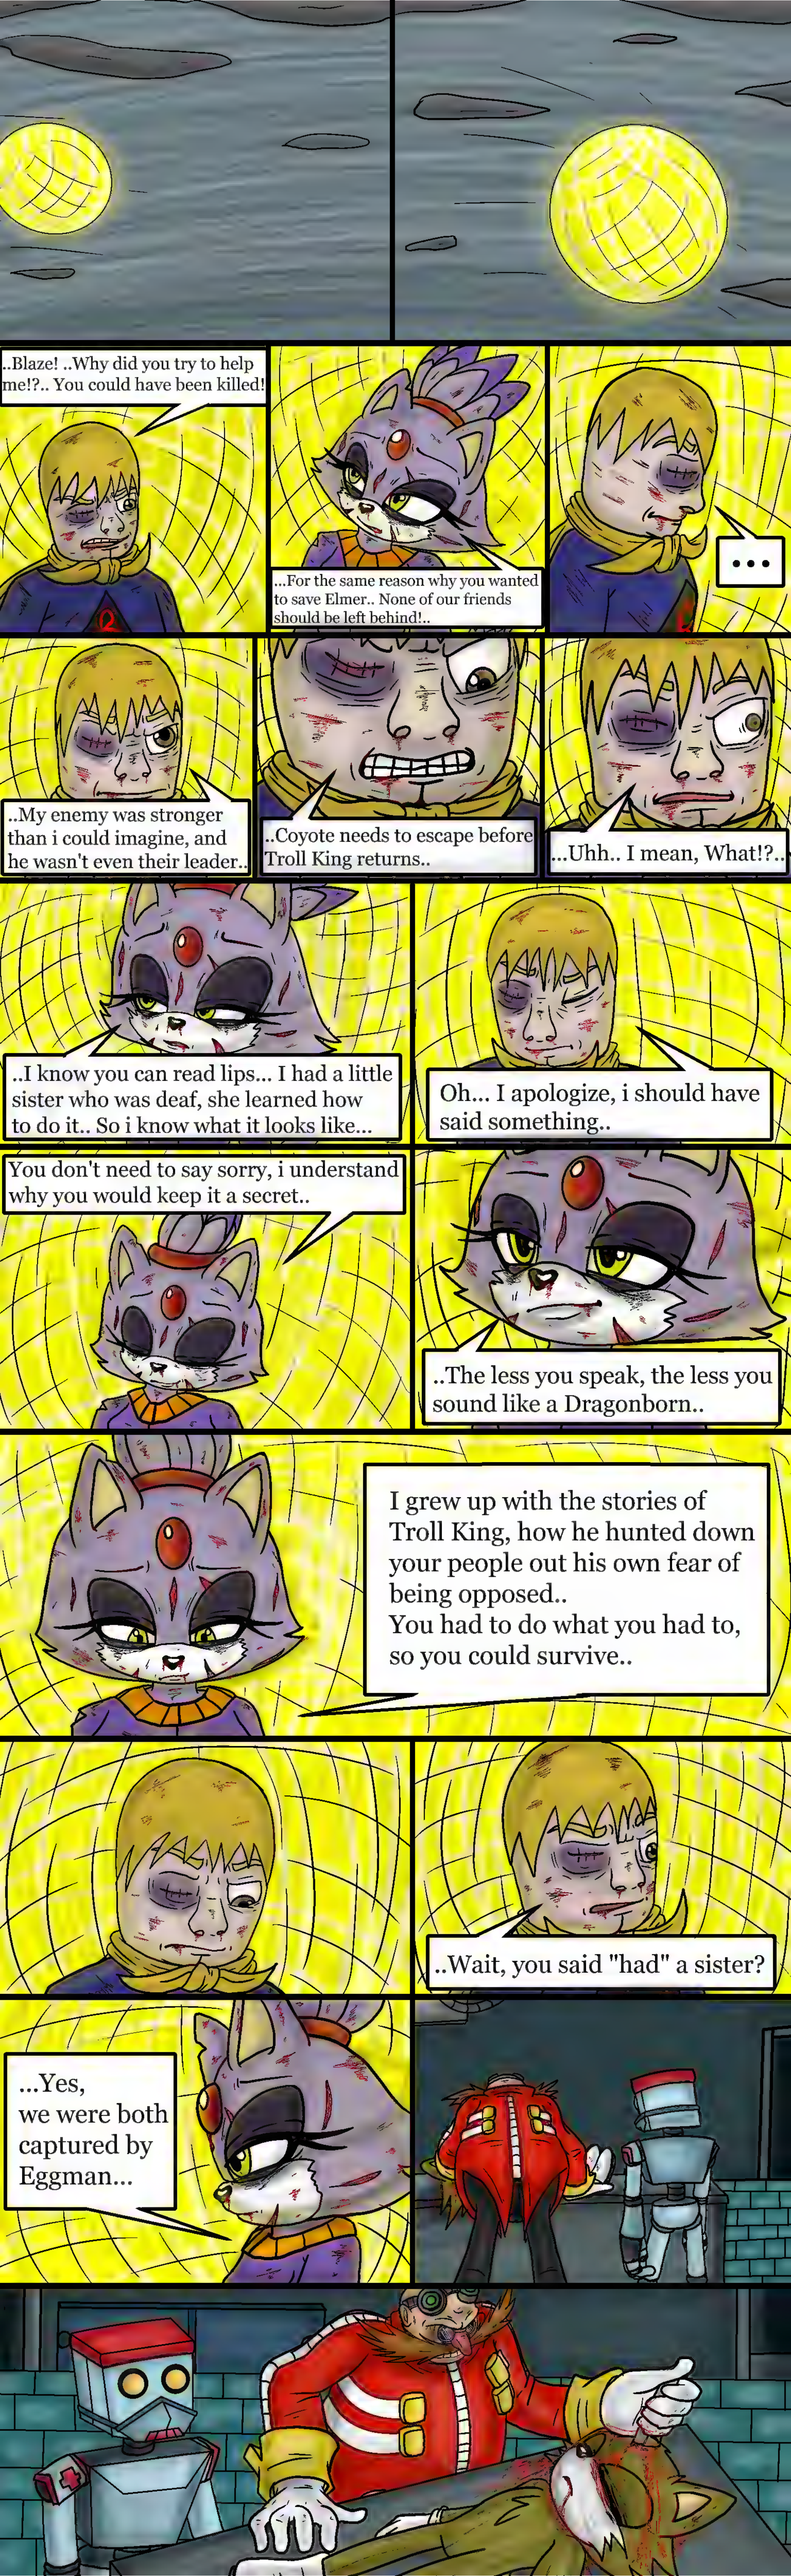
...You will surpass my father's creation! You will become greater than Shadow!!

..Sew him up, and use the scar removal ray. He must not become aware of this experiment. And inject the tracking device in his arm.. Hmm.. Perhaps we should deactivate the core for the moment, it would be unfortunate for us to lose such valuable parts in case of any, unforeseen events..

Yes, Master.

...These memories are appearing at random intervals.. It's becoming straining, and it's difficult to piece it together in a manner that makes sense.. I have to keep going!

Back to Coyote
..Oh, it's Garry in his magma form.. But, that's his last resort! He wouldn't use that unless things were really bad..
This would be the perfect time to escape! But considering the condition of my leg, speed and stealth will not be an option...
Not to mention, someone removed all of my rebotic equipment sometime after i used them to make Garry's robot clone.. Troll King must have presumed that i would use them against him if i ever had the opportunity.. So my escape options are very limited..
My original plan was to remain here so i can try to assist from the inside, but without my robotics?... I don't feel confident in that approach... And if Troll King no longer trusts in my craftmanship and forced loyalty, then he may dispose of me..
My only hope is to try and convince Garry to free me, to return the favor for me helping him create the robot clone without Troll King's awareness of it..
Garry, what's going on out there?
....Wait!! Garry, no!!



..Blaze! ..Why did you try to help me!?.. You could have been killed!
...For the same reason why you wanted to save Elmer.. None of our friends should be left behind!..
...
..My enemy was stronger than i could imagine, and he wasn't even their leader..
..Coyote needs to escape before Troll King returns..
...Uhh.. I mean, What!?..
..I know you can read lips... I had a little sister who was deaf, she learned how to do it.. So i know what it looks like...
Oh... I apologize, i should have said something..
You don't need to say sorry, i understand why you would keep it a secret..
..The less you speak, the less you sound like a Dragonborn..
I grew up with the stories of Troll King, how he hunted down your people out his own fear of being opposed..
You had to do what you had to, so you could survive..
..Wait, you said "had" a sister?
...Yes, we were both captured by Eggman...

No, no this won't do... Another unviable specimen...

..Eat my chode, faggot! You're not the only one with problems.. God, if i ever get out of here, the first thing I'm going to do is eat your Mom's juicy hairy pussy..
...
And my sister, she was so young... I will never forget her screams.
He did horrible experiments to us... He... He did other things to us too... Things no one should go through...

..I survived, but she didn't.. I owe my freedom to a man named Sonic, he was recently killed by the Trolls.. My sister died before he could save her too...
..If i ever find Eggman, i sware i will end his life!.. So no one will ever have to suffer the way that we did!..
Blaze... I don't know what to say...
..I know this is a strange time to bring all of this up, but there is something very important that i have to tell you... Something i should have told you all so much sooner, i just couldn't find the words...
..I overheard Eggman speaking one day.. He installed some kind of high powered energy infused bomb into all of us that were viable candidates.. I don't know what he was trying to project, but..
..If anyone tries to remove the robotic parts that he put in our bodies? The bomb will be triggered and it will explode.. If any of the robotic parts in me are damaged, or if he triggers the kill switch? It will also detonate...
..He said that he can't risk his technology and prized specimens falling into the wrong hands...
..Lucky for us, Sonic and our other murdered friend Espio were able to remove the tracking devices that he also put in our bodies..
..Rob, all of you are in danger.. Just being near me and Silver puts lives at risk!..
Does Silver know about the bombs?..
...You're the only person I've told... I had to tell someone... I...
I...
..Blaze!..
...You wore yourself out... Please, try to rest...

Back to Coyote

..I find it difficult to believe that someone with so much power over the land, can have such little resources of value.. Their whole system is built on lies and illusions..

A power structure, using fear to force his minions to spread his parasitic way of life.. Disgraceful!.. They must be purged, they must be removed from existance..

...Hm? Elmer's corpses, but where are you being contained? Has Troll King relocated you!? Or?...

..There should only be one room of interest left, according to Silver's map.. Elmer, you should be there..
